ADVANCED 10K TRAINING PLAN

(HIGHER VOLUME)

So you want to better that 10k PB?

Consistency is absolutely the key to success in the pursuit of any long distance running goal. This plan aims to give you that consistency, alongside a progressive weekly volume that targets both the aerobic strength required for the 10k distance, alongside some higher end more intensive intervals, with varying paces to simulate the fatigue you'll experience towards the latter end of the race.

This plan is a three-workout per week plan, so the intensity is high. **If three workouts is not sustainable for you, there is an option to swap Tuesday's session out for a steady run.** If you choose to do this, run for the same amount of time as is set for the Monday of that week, at a steady pace - you should feel like you're still be able to talk during these runs, but in shorter sentences. You can do this every week if you like, or just for some weeks when you would rather have just two sessions.

If you want to test your fitness at the halfway mark, you can always swap a Saturday session for a 5k race or parkrun, just make sure to run very easy the next day!

 @philybowden  @philybowden

BEFORE YOU START

Before choosing to complete this plan, you should be in a good existing rhythm with your running and should be **able to consistently run 5-6 days per week already**, and be completing around 35 miles per week comfortably. If this is not the case, consider the lower volume option of this plan (see my website for download).

If you get sick or you pick up an injury during the plan, don't run through it and carry on blindly. Illness can be made much worse by further stressing the body out by running through it, not to mention how difficult running can be when you're unwell. Niggles and smaller injuries can soon turn into serious ones, so make sure you see a physio to get any level of injury checked out and follow their advice.

If you miss training days for other reasons; life gets in the way and you're too busy or plans change, that's ok - it happens to everyone! Try to pick up the next day if you've only missed one or two days and you should be fine to continue, the extra rest may even be a blessing. If you miss 5+ days, it is always worth reducing the volume for a week or so as you ease in - try cutting down runs and sessions by 20-30% if this is the case.

Disclaimer: Always consult your doctor before starting a new exercise routine. This plan is appropriate for runners with some experience of interval training. Any loss or injury incurred through the use of this guide will be the sole responsibility of the individual completing it, and not Phily Bowden Coaching. PLAN KEY

- **"WU" and "CD"** : These are there on session days to ensure you do a decent **warm up** and **cool down** jog on session days to increase circulation, get your heart rate and breathing gently raised before the session, and to prepare your body for recovery post-session. You should also consider adding in drills and strides to your pre-session warm up, and some light warm up movements at home before getting out for your easy runs too.
- **HR:** If you have a **heart rate monitor**, it can be useful to use it as a guide to keep you in the prescribed paces or zones, e.g., tempo at 80-90% of predicated/estimated max HR, according to your watch.
- **Easy runs:** Easy paced runs should feel sustainable for a long time, your **HR should be around 65-75% of maximum** or "**zone 2**" and you should feel like you can maintain a conversation throughout. **Easy runs are essential to allow the body to recover**, absorb all the hard training, while forming a solid proportion of your volume - building up your load capacity.
- **Interval session:** Broken up intervals or reps of differing paces/effort, with timed recoveries. Sometimes these will be by distance (e.g. 1km, 400m..), and sometimes they will be to time (e.g. 5 mins, 2 mins..). These sessions should take you into HR zone 5 or 90%+ of maximum at times. Aim for the feeling of race pace - they're short periods of time so its never long until you have a some recovery time, which you can walk or do a very slow jog. These are great at building up your speed endurance, a key tenet of 10k training.
- **Tempo pace:** Running at tempo should feel hard, but you could still answer questions with short answers - this is a pace you could roughly sustain for 1 hour. **Aim to be at 80-90% of maximum HR or in zone 3-4.** Tempo is really great at improving lactate threshold - essentially, **helping you maintain a faster pace, for longer.**
- **Rest:** I shouldn't need to explain this one... put your feet up and let that body recover! All your hard training is being absorbed and your muscles are getting ready to be able to attack the next week.

TRAINING PLAN OVERVIEW

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
WEEK 1	40 minute run	15 min WU Interval session 15 min CD	35 minute run	15 min WU Tempo session 15 min CD	REST	15 min WU Interval session 15 min CD	70 minute run
WEEK 2	40 minute run	15 min WU Interval session 15 min CD	35 minute run	15 min WU Tempo session 15 min CD	REST	15 min WU Interval session 15 min CD	70 minute run
WEEK 3	50 minute run	15 min WU Interval session 15 min CD	35 minute run	15 min WU Tempo session 15 min CD	REST	15 min WU Progression run 15 min CD	75 minute run
WEEK 4	50 minute run	15 min WU Interval session 15 min CD	40 minute run	50 min run	REST	15 min WU Tempo session 15 min CD	75 minute run
WEEK 5	50 minute run	15 min WU Interval session 15 min CD	40 minute run	15 min WU Tempo session 15 min CD	REST	15 min WU Interval session 15 min CD	75 minute run
WEEK 6	50 minute run	15 min WU Interval session 15 min CD	40 minute run	15 min WU Tempo session 15 min CD	REST	15 min WU Progression run 15 min CD	80 minute run

TRAINING PLAN OVERVIEW

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY

WEEK 11	45 minute run	15 min WU Interval session 15 min CD	35 minute run	35 minute run	REST	15 mins easy OR 10K RACE	15 mins easy OR 10K RACE

KEY ()= recovery - in seconds , unless stated as mins
 CD = Cool down – jog
 WU = Warm up - jog

 @philybowden  @philybowden

WEEK 1

	Plan	Aim
Monday	40 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 1600m (2 mins), 1km (90), 4 x 400m (75)	Reps should be at 10k race pace.
Wednesday	35 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 10 mins (2 mins), 6 mins (2 mins), 5 mins (2 mins), 4 mins	Reps should be at 80-90% of your max HR, or a pace you can sustain for roughly an hour
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	Interval session: 7.5 min tempo (2 mins), 3 x (1km (90), 600m) (90)	Tempo at 80-90% of max HR as with Thursday, reps at 10k pace
Sunday	70 minute run	Easy long run - should be able to hold a conversation

WEEK 2

	Plan	Aim
Monday	40 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 1600m (2 mins), 800 (90), 2 x 400m (75), 800 (90), 2 x 400m (75)	1600m at 10k race pace, 800 and 400m faster than 10k pace - aim to keep reps consistent throughout
Wednesday	35 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 10 mins (2 mins), 6 mins (2 mins) 4 mins (90) 3 mins (90,) 2 mins	80-90% of your max HR, or a pace you can sustain for an hour, keep pace the same from 10 mins down to 2 mins
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	Interval session: 5 mins (90), 5 x 60 secs (60), 3 mins (90), 8 x 60 (60)	5 min rep at 10k pace, shorter reps at 5k pace or faster - focus on good running form and speed
Sunday	70 minute run	Easy long run - should be able to hold a conversation

KEY

() = recovery - in seconds
CD = Cool down - jog
WU = Warm up - jog

WEEK 3

	Plan	Aim
Monday	50 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 6 mins (2 mins), 2 x 4 mins (90), 2 mins (90), 4 x 90 secs (75)	Start out at 10k pace and aim to progressively get quicker as the reps get shorter
Wednesday	35 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 10 mins (2 mins), 5 mins (90 secs), 7.5 mins (90 secs), 5 mins	Reps should be at 80-90% of your max HR, or a pace you can sustain for roughly an hour - same pace throughout
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	25 minute progression run	start out at steady run pace, gradually progress every 5 mins, aiming to finish with the last 5 mins at 10k race pace
Sunday	75 minute run	Easy long run - should be able to hold a conversation

KEY

() = recovery - in seconds
CD = Cool down - jog
WU = Warm up - jog

WEEK 4

	Plan	Aim
Monday	50 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 6 mins (2 mins), 2 x 2 mins (90), 4 mins (90), 3 x 2 mins (90), 2 x 90 secs (60)	Aim for between 5-10k pace, you should be able to run harder and faster as the reps get shorter
Wednesday	40 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 12 mins (2 mins) 5 mins (90), 5 mins (90), 2 mins	Same as last week, a consistent tempo pace throughout, going for slightly longer at the start this time
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	Interval session: 6 x 30 secs (45), 4 mins (90), 3 mins (90), 2 mins (90), 1 mins (90). 6 x 1 min (75)	Start off with shorter faster reps, come back down to 10k pace for the 4 min. Gradually get quicker as reps get shorter
Sunday	75 minute run	Easy long run - should be able to hold a conversation

KEY

() = recovery - in seconds
CD = Cool down - jog
WU = Warm up - jog

WEEK 5

	Plan	Aim
Monday	50 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 1600m (2 mins), 1 km (90), 4 x 400m (75)	Same session as in week 1 - aim for 10k race feel and compare your splits to see how you've progressed
Wednesday	40 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 10 mins (2 mins) 7.5 mins (90), 5 mins (90), 2.5 mins	Same as last week, find that consistent tempo pace throughout and lock in
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	Interval session: 5 mins (90), 5 x 60 secs (60), 3 mins (90), 8 x 60 (60)	5 min rep at 10k pace, shorter reps at 5k pace or faster - focus on good running form and speed
Sunday	75 minute run	Easy long run - should be able to hold a conversation

KEY

() = recovery - in seconds
CD = Cool down - jog
WU = Warm up - jog

WEEK 6

	Plan	Aim
Monday	50 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 1600m (2 mins), 800 (90), 2 x 400m (75), 800 (90), 2 x 400m (75)	1600m at 10k race pace, 800 and 400m faster than 10k pace - aim to keep reps consistent throughout
Wednesday	40 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 15 mins (2 mins), 6 mins (90 secs) 4 mins	Same as last week, a consistent tempo pace throughout, going for slightly longer at the start this time
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	30 minute progression run	start out at steady run pace, gradually progress every 5 mins, aiming to finish with the last 5 mins at 10k race pace
Sunday	80 minute run	Easy long run - should be able to hold a conversation

WEEK 7

	Plan	Aim
Monday	50 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 6 mins (2 mins), 2 x 4 mins (90), 2 mins (90), 4 x 90 secs (75)	Start out at 10k pace and aim to progressively get quicker as the reps get shorter
Wednesday	40 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 10 mins (2 mins) 7.5 mins (90), 5 mins (90), 2.5 mins	Reps should be at 80-90% of your max HR, or a pace you can sustain for roughly an hour - same pace throughout
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	Interval session: 6 mins (90), 3 x 3 mins (90), 3 x 2 mins (90), 4 x 30 secs (45)	10k pace to start with, aim to progressively get quicker as reps get shorter. 30 second reps fast - focus on good form
Sunday	80 minute run	Easy long run - should be able to hold a conversation

WEEK 8

	Plan	Aim
Monday	50 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 6 mins (2 mins), 2 x 2 mins (90), 4 mins (90), 3 x 2 mins (90), 2 x 90 secs (60)	Aim for between 5-10k pace, you should be able to run harder and faster as the reps get shorter
Wednesday	40 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 12 mins (2 mins) 5 mins (90), 5 mins (90), 2 mins	Same as last week, a consistent tempo pace throughout, going for slightly longer at the start this time
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	Interval session: 5 mins (90), 3 x 2 mins (90), 4 x 90 (60), 3 x 2 mins (90), 4 x 60 (60)	5 min rep at 10k pace, shorter reps at 5k pace or faster - focus on good running form and speed
Sunday	80 minute run	Easy long run - should be able to hold a conversation

KEY

() = recovery - in seconds
CD = Cool down - jog
WU = Warm up - jog

WEEK 9

	Plan	Aim
Monday	50 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 1600m (2 mins), 2 x (1k (90), 600 (90), 400 (2 mins))	10k pace for 1600, get quicker as reps get shorter down to 400 - keep pace controlled when starting the second set
Wednesday	40 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 15 mins (2 mins), 6 mins (90 secs) 4 mins	Same as last week, find that consistent tempo pace throughout and lock in
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	Interval session: 5 mins (90), 5 x 60 secs (60), 3 mins (90), 8 x 60 (60)	5 min rep at 10k pace, shorter reps at 5k pace or faster - focus on good running form and speed
Sunday	75 minute run	Easy long run - should be able to hold a conversation

WEEK 10

	Plan	Aim
Monday	50 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 6 mins (2 mins), 2 x 4 mins (90), 2 mins (90), 4 x 90 secs (75)	Aim for between 5-10k pace, you should be able to run harder and faster as the reps get shorter
Wednesday	40 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	Tempo session: 12 mins (2 mins), 7.5 mins (90), 7.5 mins (90). 5 mins	Same as last week, find that consistent tempo pace throughout and lock in
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	Interval session: 6 mins (90), 3 x 3 mins (90), 3 x 2 mins (90), 4 x 30 secs (45)	Last hard session, get progressively quicker as the reps get shorter, 10k pace at the start, fast for the 30 secs.
Sunday	65 minute run	Easy long run - should be able to hold a conversation

WEEK 11

	Plan	Aim
Monday	45 minute run	Easy, recovery run - should be able to hold a conversation
Tuesday	Interval session: 1600m (2 mins), 1km (90), 4 x 400m (75)	10k pace for everything today, nice and relaxed for the 400's - no need to sprint, the hard work is already banked
Wednesday	35 minute run	Easy, recovery run - should be able to hold a conversation
Thursday	35 minute run	Easy, recovery run - no session today, time to taper those legs fresh
Friday	Rest	Offload the legs and let that training be absorbed
Saturday	15 minute run OR 10K RACE	If your 10k race is on the Sunday, do 15 minutes very easy today, with optional for 3-4 relaxed strides after If your 10k race is today, go get after it! The training is done, now to reap the rewards!
Sunday	15 minute run OR 10K RACE	

YOU DID IT!

I hope you enjoyed completing this 10k plan,. If you did, be sure to let me know how it went by leaving a comment on one of my YouTube videos! I love hearing how people have got on with their training and races.

LOVE THE GRIND.
